From the makers of the ThinkPad® comes the first true commercial Android 3.1 Tablet, the Lenovo® ThinkPad Tablet. Unlike other Tablets, it comes with additional features to help business professionals to do more on the go and also allows IT managers support them easily, no matter where they go. This means, better management of multiple devices, more customization options, easy deployment options, advanced reliability and most importantly, enhanced security. So, if you are looking for a Tablet built for business, then it has to be the ThinkPad Tablet

For Business Professionals:

- Stay connected to colleagues and friends with easy e-mail & pre-installed social networking applications; a 2MP front-facing camera for video calls and Social Touch — a unique application that pulls it all together in an easy to use widget
- View and edit Microsoft® Office & PDF documents with Documents to Go by DataViz
- Write naturally and jot down handwritten notes, that automatically convert to handwritten text, mark up documents, and draw pictures with the accurate pressure sensitive ThinkPad Tablet Pen

- Comfortably type long e-mails, create documents and enter data in forms or spreadsheets, thanks to the convenient optional ThinkPad Tablet Keyboard Folio with built-in optical TrackPoint®

For IT Managers:

- Easily deploy and provision multiple devices with Lenovo's optional custom imaging service and zero touch deployment solution
- Provide easy and secure e-mail access with Good Technologies (certified) and Cisco VPN support (service charges may apply)
- Control device security with Active Directory Password support
- Microsoft® ActiveSync integration
- Supports encrypted user data and SD Cards
- Purchase and deploy applications via the Lenovo Application Shop
- Track and secure devices with optional Computrace utility allowing remote wipe & disable
