

Offer Small Businesses an Affordable Server Solution with Windows Small Business Server 2011 Essentials

Ideal as a first server for small businesses with up to 25 users, Windows Small Business Server 2011 Essentials provides a cost-effective and easy-to-use solution to help protect data, organize and access business information from virtually anywhere, support the applications needed to run a business, and quickly connect to online services for e-mail, collaboration and line-of-business applications.

Provide all the right benefits to your small business customers

Deliver peace of mind with automatic local backup and restoration. SBS 2011 Essentials helps to ensure your customer's data is safe by performing automatic, daily backups of every computer and server on the network. Restore individual files, folders, or an entire PC or server with simple disaster recovery tools.

Enable your customers to work from virtually anywhere. Provide remote access to important information so your customers can solve business challenges when they're away from the office. Using a personalized web address, users can access their computers and documents from any common web browser.

Simplify the cloud experience for your customers. Demand for online services is growing fast all over the world especially in the small business space. SBS 2011 Essentials has been designed to facilitate the connection to the cloud with its integration between on-premise solutions and online services.

Windows Small Business Server 2011 Essentials is an affordable easy-to-use first server solution ideal for small businesses.

Benefits of Windows Small Business Server 2011 Essentials includes:

- Daily automatic backups of clients and servers
- Affordable and easy to deploy, use and maintain
- Organize and access files from virtually anywhere
- Effortlessly connects to online services in order to expand capabilities

Windows Small Business Server 2011 Essentials
