KEY DIFFERENTIATORS

COMPARISON WITH COMPETITORS

Comparison with HP Pro 3005

The ThinkCentre M75e desktop offers:

- SFF model for more space savings
 - Up to 16GB Memory
 - TPM data security feature
 - DASH technology for remote management
 - Tool-less design for easy expandability
- HP Pro 3005 uses NVIDIA® GeForce® 9100 chipset and offers an additional PCI slot.

Comparison with Dell OptiPlex 580

The ThinkCentre M75e desktop comes with:

- Lenovo Enhanced Experience for Windows® 7 for faster boot-up and shut down times
- Two PCI-e slots for more expandability
- Higher wattage Power Supply Unit (PSU)

INTRA-SERIES POSITIONING

Comparison with ThinkCentre M58/M58p

The ThinkCentre M75e desktop:

- Is powered by AMD™ processors
- Is a mainstream desktop
- Supports Quad¹ Independent Monitors
- Comes with DASH technology for remote management

The ThinkCentre M58/M58p supports up to Intel® Core® 2 Quad processors and comes with Intel® vPro™ technology.

Comparison with ThinkCentre M70e

The ThinkCentre M75e desktop:

- Is built on the AMD™ VISION Pro Technology
- Includes 4 DIMMs
- Supports up to 16GB Memory
- Offers Quad¹ Independent Display capability
- Offers TPM data security

The ThinkCentre M70e is powered by Intel® Core™ 2 Quad processors and offers an additional PCI slot.

CUSTOMER NEEDS AND OUR SOLUTIONS

Customers need desktops that maximize productivity and offer greater value

The ThinkCentre M75e is designed for large enterprises and public segments that require powerful computing solutions. The ThinkCentre M75e is built on the latest AMD™ VISION Pro Technology that are known for their reliability and power computing capability. It delivers 4 DIMMs to provide customers with ultimate memory power. In addition, the desktop is engineered to maximize productivity with Dual/Quad¹ Independent Display capability. A full-featured desktop solution for the large enterprises, the ThinkCentre M75e comes with Configure-to-Order (CTO) capability for global TW/SFF models.

Customers need desktops that are highly manageable and secure

Large enterprises require PCs that are easily manageable and deliver reliable data protection. The ThinkCentre M75e includes essential manageability and security features. The latest DASH suite for remote management enables IT staff to remotely monitor and update systems, thereby considerably cutting down desk-side visits. Features such as the embedded Trusted Platform Module (TPM) chip, Hardware Password Manager, onboard PS/2 port and USB enable/disable capability protect mission-critical data and provide customers with complete peace of mind.

Customers need desktops that offer eco-friendly computing

Large enterprises need energy-efficient desktops to reduce energy costs on their global PC fleets. The ThinkCentre M75e is thoughtfully designed for green computing. It complies with environmental standards such as ENERGY STAR® 5.0², GREENGUARD® and Europe EuP Directives. To reduce energy bills, the M75e includes the ThinkVantage® Power Manager software that significantly minimizes power consumption.

Customers need desktops that provide reliability and easy serviceability

Built on AMD™ VISION Pro Technology, the desktop offers longevity through a 15-month guaranteed stable lifecycle. The tool-less chassis enables quick and easy expansion of storage and memory components. Finally the trusted Lenovo warranty service and support reduces PC down time and keeps businesses productive.
